

Workshop Program

14th Workshop on "Foundations and Constructive Aspects of QFT" 2004

II. Institut für Theoretische Physik der Universität Hamburg

Program

Friday, 2nd July, Room 2, Building 2a

- | | | |
|-------|------------------------------------|-------------------------------------------------------------------------------|
| 15:00 | Karl-Henning Rehren
(Göttingen) | Local Fields in Boundary CFT |
| 16:00 | Coffee Break | |
| 16:30 | Fabio Ciolli (Rom) | On Superselection Sectors of Massless Scalar Free Field in $1 + 1$ Dimensions |
| 17:30 | Giuseppe Ruzzi (Rom) | Superselection Sectors in Arbitrary Globally Hyperbolic Spacetimes |
| 20:00 | Dinner | |

Saturday, 3rd July, Room 4a/b, Building 1b

- | | | |
|-------|-------------------------------|--------------------------------------------------------------------------------------------|
| 9:00 | Helmut Hözlzer
(Göttingen) | Functional Methods at Large N |
| 10:00 | Coffee Break | |
| 10:30 | Michael Dütsch (Zürich) | Perturbation Theory around a Generalized Free Field by Means of the AdS-CFT Correspondence |
| 11:30 | Jaques Bros (Paris) | Fields and Wignerian Particle States in de Sitter Spacetime |
| 12:30 | Lunch | |
| 14:00 | Michael Müger
(Amsterdam) | Conformal Orbifold Theories and Braided Crossed G-Categories |
| 15:00 | Martin Porrman
(Hamburg) | Phase Space Structure and Quantum Inequalities |
